**This year has once again been a very busy time for our disability clubs Spot The Jack and the Visually Impaired club Touch Wood, at Bradley.**

**Once a month we play a friendly game of crown green bowls with other bowling clubs one of our visits included a visit to a newly formed visually impaired club in Chester and everyone had a great day out. We have also attended a Boccia course and are now able to include this friendly bowling game at the club using softer and safer bowling equipment.**

**We have attended two Insport Series one at Deeside Leisure Centre and the other at Venue Cymru Theatre in Llandudno. Both of our clubs benefited from attending by improving our membership. We also made contact with an official from the Stroke Victim Society and from that we have now included a new club at Bradley called First Steps.**

**The Clubs at Bradley have been working hard with Disability Sports Wales for the last two years or so to achieve an Insport Ribbon Award and I am pleased to announce and congratulate everyone on achieving this award recently.**

**We are now recognised as an official Disability Sports club and are included on the Wrexham Council website and Disability Sports Wales web site. We would like to thank Terri Ritchie Disability Sport Wales Development Officer for all her help and kindness over the last two years.**

**If anyone is in need of any help in starting up a disabled Bowling Club and would like some information please get in touch with me and arrange a visit to Bradley.**
