

Report From Welsh Crown Green Bowling Association Disability Liaison Officer

It was nice again to pay a visit to the disabled club (Biscuits & Bowls) at Penmaenmawr and to see all the enjoyment that the bowling club are giving and to see the club doing so well last Summer.

Getting people to get out of their armchair and getting some exercise is very important and Crown Green Bowling can offer all of this as well as mixing with people and making new friends.

This year it is hoped to start a Visually Impaired club at Bryn Newydd Bowling Club I will be arranging a visit to Bradley for Stuart Lewis who has shown a lot of interest.

Bradley Bowling club have their Special needs club "Spot the Jack" up and running and this season will be visiting special Needs Schools to promote Crown Green Bowling.

Some bowling clubs are struggling to encourage new membership and help is at hand with a new web site bowl4life created by the Welsh Crown Green Development committee promoting health and well-being

I hope you visit the web site and get some ideas for promoting new members to your club.

The development committee are also producing a new advertising poster and bowling clubs can do just the same by putting your contacts and pictures of your club, some members, and your facility on a poster. Sometimes people like to see a photo of the facility before they will commit themselves, these can then be put up in shops etc.;

If any club is interested in starting up a Special Needs. Visually Impaired, clubs or would like to come to Bradley and visit our set up please contact me.

Have a great 2016 bowling season good luck to all of those who are working hard to promote Crown Green Bowling
